The Present Is The Future

This week the book has been closed on the entire post-war chapter of world history. The era of post-war capitalist prosperity is ended. All that is left of that past is frightened people living to the bitterest strain of their oppressive illusions.

Santa Claus is dead. Donner and Blitzen are rolling in the streets. Santa Claus’s corpse, with a few bits of flesh and hair still sticking to the staff, lies slumped across the sleigh. There are a few eyewitnesses cheerfully telling themselves that Santa Claus will be back on the roofs, as usual, come Christmas.

Look at their eyes: Their little eye sockets spread, the smile too grimly drawn. There is a graver in their tight voices as they speak. Look in the mirror: It is you.

You have not seen it all. Some, you will lose your jobs — probably to a “welfare worker,” a middle-class college-educated, probably a functionary, some guy who was brought in from a white neighborhood. Then you will lose your house as the mortgage is foreclosed, the car is repossessed, and you are one of the “welfare people” being herded into a job away from the pay window next to you. That’s your future, and the future has already begun.

You have two ways to go.

The Dionysians

To see one of these alternatives today, look at the black and Spanish-speaking proletariat. They are not the same anymore. They are the future, the future Herbert Hoover Nixon is building for you. They are yourself, created by poverty, poverty huffed up into an idol in FDR’s faustic LeFro Jones Baraka. Hungry! Hungry! Baraka will eat your neighbor in the name of Community Control.”Colo woman? You will burn your neighbor’s house to warm yourself. You will be a vulture, just like a buzzard. Like Paja De Baraka, you will eat carrion, take from the state — and become carrion.

You think not? We know you better than you know yourself. When you see a black mother throw off Welfare to starve because she has no money — because you have no money — you are a fool. You have to be. If you did you would lose your job. You would lose it outright. If you were black, you would be black and you would lose it outright. If you were white, you would lose it outright. If you were black, you would lose it outright.

Trade unions are finished as effective self-contained fighting forces for real wages and jobs; communism: anyway, nearly all the trade-union leaders have already joined the enemy camp with Meaney! You are going to get back to honest, militant trade-unionism with a “militant radio-station cause.” You are playing a bad joke on yourself. We speak frankly: you are being infantile, Santa Claus is not coming this Christmas.

Then you set up another argument. You say, “What does this little paper know about important things like that?” Now, you have really walked into it. This little paper speaks for the millions throughout the entire world who have known which end was up for the past fifteen years! We have correctly predicted every part of the development of the world and national economy for more than ten years. We have been absolutely right when every government expert, every trade-union official, and everyone else has been continuously flat wrong.

On the record, this little paper represents the only group of people anywhere in the world who know which end is up — who know how to discover which end is up. Check it out for yourself, check back on what we have said in this little paper in the past and compare that with what happened. Check out everyone else you can think of in this same way.

You have only one choice. You can choose to live along as you are going, and end up in fascism about five to six years. Or, you can choose to become a “communist” and work with. That is your only choice.

Santa Claus is not coming this Christmas.

The Fight Is Now

We are not offering you a “sensible gesture.” We aim to win. We intend to win, and we have the essential ability to win. We intend to have workers’ governments established throughout North America and Western Europe by 1978 or 1979. We know exactly how to do it: we know exactly what strategy has to be followed, beginning with limited struggles today, to get to the point of forming a National Committee.

Right now, the immediate “injury” is the attack on the unions. Right now, the immediate “danger” is the attack on the unions. Right now, the immediate “danger” is the attack on the unions. Right now, the immediate “danger” is the attack on the unions. Right now, the immediate “danger” is the attack on the unions. Right now, the immediate “danger” is the attack on the unions. Right now, the immediate “danger” is the attack on the unions. Right now, the immediate “danger” is the attack on the unions.

That is the beginning. That battle must be won at all costs, it is not a battle with guns; it is in the same class war, with Nixon and his allies and dupes on one side, and we and the unemployed and some trade unions on the other. In such a war, there are only two sides. This is the first battle that leads toward workers’ government by 1978 or 1979.

end with it! It doesn’t Build support of any possible kind for the March 31 Philadelphia Welfare Conference. You are fighting for yourself and your children in the only way that counts. Santa Claus isn’t coming any Christmas, until you take over the job.

Allegra Govt. Initiated Race-Baiting in Phila.

PHILADELPHIA, March 12 — A black community organizer has informed the Labor Committee that North Philadelphia welfare and community organizers have recently been subjected to racist hate phone messages from the National Socialist White People’s Party, a self-styled black movement. The messages have included threats of violence, racist and anti-Semitic utterances, and circulated throughout the ghetto, adding fuel to the distrust that many oppressed minorities feel.

The North Philadelphia organizer reports that the organizers live in the same neighborhoods as the organizers, so the messages are passed on to the organizers, who then pass them on to the community organizations.

The messages, viciously racist and anti-Semitic, ridicule the organizers throughout the ghetto, adding fuel to the distrust that many oppressed minorities feel towards white community organizers.

The messages are passed on to the organizers, who then pass them on to the community organizations.

The messages are passed on to the organizers, who then pass them on to the community organizations.

The National Socialist Workers Party, publishers of New Solidarity, have since their founding in 1968 fought for unified struggles of black and white. Currently, they are calling upon white and black trade unionists to form a black community organizing movement that is fighting for the rights of all community workers.
